Post-Task-Questionnaire

*Required

1. **What did you like about the use of the eye tracker in general?** *
   Tick all that apply.

   ☐ Intuitive

   ☐ Fast learnable

   ☐ Short interaction duration (in the case of mouse input)

   ☐ Good tracking (point of view is recognized, etc.)

   ☐ Others:

   _____
   _____

2. **What did you not like about using the eye tracker?** *
   Tick all that apply.

   ☐ Too many incorrect entries

   ☐ Hard to learn

   ☐ Long interaction duration (in the case of mouse input)

   ☐ Bad tracking (point of view inaccurate, etc.)

   ☐ Tiring/exhausting for the eyes

   ☐ Difficult calibration

   ☐ Restriction of movement (keeping the head still)

   ☐ Others:

   _____
   _____

3. **As how exhausting did you feel the calibration for the eyes?** *
   Mark only one oval.

   ◯ Not exhausting

   ◯ Mediocre

   ◯ Exhausting

4. **Would you use this system privately?** *
   Mark only one oval.

   ◯ Yes

   ◯ No

   ◯ After changes

5. **If you choose "after changes": What should be changed?**
Mark only one oval.

○ Less erroneous input

○ Shorter interaction time

○ Without text input

○ With more freedom of movement

○ Others:

_____
_____

6. **Further positive comments**

_____

_____

_____

_____

_____

7. **Further negative comments**

_____

_____

_____

_____

_____

8. **Other**

_____
